

# North Georgia Crappie Anglers

## Meeting Notes

October 19, 2017

The October 19 meeting had an attendance of about 60 members and guests.

The meeting started with general business reports from various officers and committees following a country style dinner.

Tony Maddox presented pins to the winning team members for the August and September Tournaments. The winning team members for August were Tom Brown and Chip Gibbs. The winning team members for September were Chip Gibbs, Gary Gibbs, Tony Maddox and Scott Bales. Tony also gave pins to the winner of the big fish for the August Tournament. The big fish winner for August was Chip Gibbs who had a 1 pound 11.4 oz. crappie. The winner of the big fish for September was Warren Lange with a 1 pound 6.4 oz. crappie. He had received his pin at a previous meeting.

The program for the evening was a very informative presentation delivered by Bill Carson and Joe Snyder of Humminbird. The presentation included an overview of Humminbird's history and corporate parent company, Johnson Outdoors. They then showed many slides that highlighted the latest mapping, down imaging and side imaging technology offered by Humminbird. The high definition LakeMaster mapping looked amazing and included a feature that allows one to reset all lake depths based on current actual lake levels. This saves one always having to remember that the map depths shown are

not really accurate when a lake is down several feet. The MEGA down scan and MEGA side scan images they showed that were captured using the newest high megahertz multiple transducers were simply amazing. The details of underwater structure and fish shadows, etc. were superb. The MEGA down scan and MEGA side scan are available on higher end units from Humminbird. The members attending got a great overview of the Humminbird product line and current technology.

Below are some pictures from the meeting including the pin presentations and the Humminbird representative doing his presentation.
