

North Georgia Crappie Anglers

Meeting Notes

March 14, 2019

The March 14 meeting had an attendance of about 70 members and guests. This was another very good turnout.

The meeting started with some general business reports following dinner. Roy MacMillan gave a treasurer's report indicating that while our balance is very good today we have some major expenses scheduled for the year.

Tony Maddox and Woodie presented pins to the February tournament winners. The winning team members for February 16 were Rich Wilks and Dean Langford with a total weight for 7 fish of 8 pounds 11.2 oz. The big fish winner was Mark Hammond with a 2 pound 1.8 oz. crappie. His fish is now the big fish so far for the new year.

Mike Dyer then introduced Mike McConnell who made a slide presentation regarding boat motor issues on the water. He indicated that the number one cause of breakdowns was running out of fuel as often fuel gauges are inaccurate. He talked about other things to look for when an engine won't start/run correctly. Some can be fixed by carrying a few simple tools and parts for emergency repairs. He asked for any other thoughts from the members that could be used to amend his slides. When he has all input the information will be added to the website so folks can access it when on the water.

A raffle was held at the end of the meeting. Jay Mabe won a nice cooler and Rick Hall won the cash prize.

Below are some pictures from the meeting.
