

Tournament Results January, 2018

Our January 27 tournament included 19 teams with 47 members participating. This was the highest number of teams that have participated in one of our tournaments. Participants included 7 brand new members of the club.

At the 12:00 PM weigh-in at Sherry's Bait and Barbeque, the team of Ron Curtis, Don Frinfrock and Clayton Nugent won the largest 7 combined fish weight at 4 lbs. 6.2 oz. The largest fish of the day was caught by Mark Hammond at 1 lb. 5 oz.

The weather was decent for the participants as temperatures became fairly pleasant as the morning progressed. Unfortunately the fishing was extremely poor. Out of 19 teams that participated, only 4 teams weighed in their catch. Most of the fish caught were also relatively small. It is widely believed that the tough fishing was due to the low water temperatures and abundance of available bait fish.

Below please see the attached January Tournament Results Form and Monthly Summary along with some pictures from the weigh-in at Sherry's.
