

# Tournament Results February 15, 2018

Our February 15 tournament included 11 teams with 27 members participating. This was a nice turnout for a weekday tournament. (This tournament was postponed to this date from the originally scheduled Feb. 10 due to poor weather on that date.)

At the 12:00 PM weigh-in at Sherry's Bait and Barbeque, the team of David Thornton, Josh Thornton and Larry Frazier won the largest 7 combined fish weight at 6 lbs. 0 oz. The largest fish of the day was caught by Tom Brown at 1 lb. 9.2 oz. This also now is the largest tournament fish of the year 2018.

The weather was not the best as the lake was covered by heavy fog most of the morning making it hard for boats to leave their safe areas. Fishing improved a bit from the last tournament but was still poor. Out of 11 teams that participated, only 6 teams weighed in their catch. Everyone is optimistic that the crappie are about to get much more active as the water temperatures are rising.

Below please see the attached February 15 Tournament Results Form and Monthly Summary along with some pictures from the weigh-in at Sherry's.
